A Guide to the Gardens

1.  Barbara Euston Visitor Center and Shop
   A second level garden of sowing, growing, and harvest, this 2,000 square foot garden provides an educational and fun experience for visitors of all ages. From the Rocky Pathway to the Labyrinth, you will find a connection to nature in this peaceful setting.

2.  The Tree of Fruity Fruit
   Carol Taitkon Entry Garden
   A mixed border garden of spring bulbs, annuals, and perennials that provide a color punch to the landscape. This garden is designed to appeal to all ages and is a great place to start your visit to the Botanical Garden.

3.  Carol Taitkon Entry Garden
   A mixed border garden of spring bulbs, annuals, and perennials that provide a color punch to the landscape. This garden is designed to appeal to all ages and is a great place to start your visit to the Botanical Garden.

4.  Ash-on-the-Rock
   A garden site that is designed to showcase the diversity of heirloom and rare stone fruit such as apricots, cherries, and plums. The garden is located on the north side of the visitor center and is a great place to visit during the summer months.

5.  Children's Discovery Garden
   A special garden for children of all ages to play and learn about different plants and flowers. A children's playground structure is designed by local artist Allen Timmons.

6.  Rain Garden
   This garden is a rain garden, a "living filter" through which sediment carried by surface water runoff is filtered and cleaned. The captured water slowly percolates through the soil, providing a home for various native plants and wildlife.

7.  Fitzpatrick Conservatory
   This glass conservatory is home to a variety of tropical and exotic plants and is open to the public year-round. The annual Orchid Show is the largest show in the Northeast.

8.  Edible Gardens
   These gardens are used to grow a variety of fruits and vegetables that are used in the BBG restaurant. The garden is located on the north side of the visitor center and is open to the public.

9.  Native Border
   A collection of native North American plants demonstrates the effectiveness of native plants for a home garden. The garden is located on the north side of the visitor center and is open to the public.

10.  Education Center
     Originally constructed in 1984, with a classroom addition in 2013, the Education Center is the hub of all educational activities at the Botanical Garden.

11.  Mother Earth Lodge
     Originally constructed in 1973, with a classroom addition in 2013, the Mother Earth Lodge is the hub of all educational activities at the Botanical Garden.

12.  de Gersdorff Perennial Border
     Originally constructed in 1973, with a classroom addition in 2013, the Mother Earth Lodge is the hub of all educational activities at the Botanical Garden.
